

Hiding Animal Information on Client Portal

Last Modified on 05/15/2023 6:02 pm EDT

By default, the Client Portal shows information for all of your animals. If you do not want to show one of your animals, the Client Portal allows you to hide their information.

Steps to Hide Animal Information on Client Portal

1) Go to your User Profile by clicking the user icon on the upper right and then clicking "My Profile":

2) Select the "Control Patient Display" radio button on the left;

User Profile

- Change Username / Email Address
- Change Password
- Update Contact Information
- Control Patient Display

After updating your username / email address, you will have to log in again.

Current Password

Your current password is required to update your email.

New Username / Email Address

Submit

3) Select your animal in the dropdown and click "Hide Patient". If you would like to unhide your animal, this page also allows that.

User Profile

- Change Username / Email Address
- Change Password
- Update Contact Information
- Control Patient Display

Select patient to hide:

Hiding a patient will remove them from all drop down boxes. This action can be undone at any time from this page.

Hide Patient
